

Case Study: Driving Instructor Profile Redesign — Kursify

1. Project Background & Context

Kursify is an Estonian platform designed to match learner drivers with certified private driving mentors (*sõidupraktika / juhendaja*) in full accordance with the regulations of the Estonian Transport Administration (*Transpordiamet*, § 109 *Liiklusseadus*).

Page Objective: Design a high-converting dedicated landing page profile for an individual mentor (Artur Kallas), optimized to maximize direct trial bookings and sales of comprehensive exam preparation packages.

2. Target Audience & Pain Points

- Learners Preparing for the State Road Exam:**
 - Pain Point:** Acute anxiety over failing the *Transpordiamet* road test. Failing incurs a €40 state retake fee and a 4- to 8-week queue for a new appointment.
 - Solution:** A dedicated training route focusing on Ülemiste state exam circuits paired with a tailored *"Eksamipakett (3 × 60 min)"*.
- Novice Drivers & Parking Anxiety:**
 - Pain Point:** Lack of confidence during tight maneuvers, compounded by fear of harsh criticism or short-tempered coaches.
 - Solution:** Training focused on Regila parkla, a reassuring teaching tone (*"ei tõsta kunagi häält"*), and a modern dual-pedal vehicle equipped with 360° parking cameras.
- Drivers Transitioning to Automatic Transmissions:**
 - Pain Point:** Needing practice hours in a modern hybrid crossover featuring an automatic transmission.

3. Key Interface Sections & Functional Roles

Section	Elements & Content	UX / Marketing Rationale
Header & Compliance Bar	Kursify brand mark + SÕIDUPRAKTIKA badge, green shield, mandatory T-card disclaimer (§ 109), and an <i>"Aitame vormistada kohapeal"</i> helper tag.	Removes regulatory friction. Establishes legal compliance and legitimate operational status within the first seconds of the visit.
Instructor Profile	Mentor portrait slot (3:4), 4.9 ★★★★★ rating, AUTOMAATKÄIGUKAST pill, spoken languages (EST , RU , ENG), 12-year driving tenure, and a direct quote.	Builds personal rapport. Calm, direct quotes alleviate beginner anxiety and foster trust.
Training Vehicle	Vehicle visual slot (16:10) paired with a structured spec sheet: Toyota RAV4 (2021), Hybrid/Automatic, 360° camera, 9 airbags, dual pedals.	Highlights safety and comfort. Reassures students regarding the specific car they will operate and confirms mentor-side pedal control.
Interactive Practice Zones	Interactive route map slot (16:9) with zone tabs (<i>Ülemiste, Regila, Mustika, Kesklinn</i>) updating live location copy.	Contextual route relevance. Allows students to select locations matching their specific goals (parking, city traffic, exam circuits).
Social Proof (Reviews)	Authentic first-attempt state exam pass reviews with verified badges (<i>Liis, Marek</i>).	Reinforces real-world success. Reduces hesitation before booking.
Sticky Booking Sidebar	1. Scarcity pill (<i>"Sel nädalal vabu aegu: 2 õpilasele · Homme 14:00"</i>). 2. Package selector (Exam Pack €66 with savings / 1 session €25). 3. Loss aversion notice (€40 retake fee reminder). 4. Validated phone input form. 5. Instant call & WhatsApp triggers.	Primary conversion engine. Stays accessible on scroll, providing seamless pathways for direct form submission, instant calls, or pre-filled WhatsApp messaging.

4. Media Asset Specifications & Placement

- **Instructor Portrait:**
 - **Placement:** Top-left corner of the profile card.
 - **Aspect Ratio:** 3:4 (176×235 px desktop, 128×170 px mobile).
 - **Art Direction:** Neutral, professional portrait of Artur in clean light attire or seated behind the wheel.
- **Vehicle Photography:**
 - **Placement:** Inside the *"Õppesõiduk & Turvalisus"* container (left column).
 - **Aspect Ratio:** 16:10 (responsive column width).
 - **Art Direction:** Exterior shot of the Toyota RAV4 Hybrid (clean exterior, front three-quarter angle).
- **Route Map Diagram:**
 - **Placement:** Inside the *"Harjutusalad Tallinnas"* container.
 - **Aspect Ratio:** 16:9.
 - **Art Direction:** Stylized dark map of Tallinn highlighting meeting locations and dedicated zones (*Ülemiste, Regila, Mustika, Kesklinn*).

5. Technical Stack & Implementation Details

- **Markup & Styles:** Semantic HTML5 structured with utility-first Tailwind CSS.
- **Typography:** Manrope for readable UI prose paired with JetBrains Mono for prices, badges, technical parameters, and data accents.
- **Color System:** Dark background palette centered on Slate 950 (#020617), accented with Emerald (#34d399) for verified statutory trust and Amber (#fbbf24) for scheduling scarcity.
- **Lightweight Interactivity:** Pure vanilla JavaScript handling tab transitions, dynamic WhatsApp message string encoding, inline phone formatting, and booking confirmation workflows.
